Mr. James E. MacLane,

Inspector U.S. Mint,  
Philadelphia

Sir:-

We have received your order of the 23rd, and should like some further information in regard to the second item. The order calls for two dozen Sta-burettes with 1/2 doz. drip cups for same.

We enclose sketches of two forms of burettes we have supplied for use in the Humid Assay of Silver. If Form A is desired shall we send the metal parts also? If B is desired the extra drip cups will have to be fitted on the burette by means of rubber as the

regular form is ground on and but one can be supplied for each burette.

If something else is desired other than these two instruments, we would be much indebted to you if you can supply sketches with full descriptions.

Yours respectfully,

J. G. GRAY,

Mr. James E. MacLane,  
Inspector U.S. Mint,  
Philadelphia

Sir:-

We have received your order of the 23rd, and should like some further information in regard to the second item. The order calls for two dozen Sta-burettes with  $\frac{1}{2}$  doz. drip cups for same.

We enclose sketches of two forms of burettes we have supplied for use in the Humid Assay of Silver. If Form A is desired shall we send the metal parts also? If A is desired the extra drip cups will have to be fitted on the burette by means of rubber as the regular form is ground on and but one can be supplied for each burette.

If something else is desired other than these two instruments, we would be much indebted to you if you can supply sketches with full descriptions.

Yours respectfully,  
J.G. Grey
